JUN - 3 1986

Mr. Jimmy D. Cook
P.O. Box 148
Bluff, Utah 84512

Dear Mr. Cook:

An examination of your gold operation south of Bluff airport was conducted on May 23, 1986. The following details were discussed by operators present and Dan Netcher, geologist from this office.

1. Since the operation was being stopped for the summer the area was to be cleaned up as much as possible. Cleanup was not to be to the extent to interfere with restart operations planned this fall. The cleanup operation was to include trash and debris removal and smoothing out berms and excess piles of sand and gravel.
2. Operations were conducted this spring. Notices are to be filed each year for operation conducted during that year. Therefore, if operations were to begin this fall, a notice must be sent to this office no less than 15 calendar days before you begin operations.

Enclosed is some information that may be helpful in understanding our 43 CFR 3809 regulations. If you have any questions feel free to contact Dan Netcher at (801) 587-2201.

Sincerely yours,

Robert J. Netcher
acting
Area Manager
